14210

Item Number 9881526

Recovery-service-piercing plier made from high quality chrom vana dium steel with changeable piercing needle and access fitting. Connection: 1/4" SAE

A REFCO top product item which enables an immediate piercing on the charging tube at any refrigerator or freezer (Do mestic). Just pierce the tube and you are ready for evacuating or charging the system. After finishing the service job use pinch-off-plier and pinch behind the service-piercing plier and braze the tube.
