# AQUASWITCH.0066.8

**Item Number** 3000542

A reliable switch for changing water levels. The electronic sensor sends a signal to valves, pumps and alarm systems when the water level exceeds a defined level.

Electronic water switch, 24V, cable length: 9.7ft

- Sensitive electronic sensor technology
- No blocking of floats by dust, insects or other obstacles

## Technical Data

| | |
|---|---|
| **Material** | ABS |
| **Color** | yellow (RAL 1023) |
| **RoHS Conformity** | Yes |
| **Operating Temperature Range** | 32 – 158 °F |
| **Water Temperature Range** | 32 – 122 °F |
| **Voltage** | 24VDCAC |
| **Frequency** | 50 / 60 Hz |
| **Ingression Protection** | IPX7 |
| **Cable Length** | 9.7 ft |
| **Alarm Relay** | 5 A 250 VAC 1250 VA |
| **Water Level** | 25/64" nom., 15/65" min., 35/64" max. |
| **Packaging** | Joker Bag |
