Item Number 4688925

The combined oil pump pumps oil from the oil tank directly into the compressor crankcase. The supplied hose also enables the evacuation of the compressor oil.

· No evacuation of the compressor necessary = 70 % reduced filling time
· Air and moisture stay outside
· Capacity per pump stroke: 1.7 oz
· Suction tube: Ø 5/16", length 11.4"
· For use up to 87 psi

Technical Data

Material	Steel
Color	bare
Number of Pieces	1
Length	9.25 "
Device connection	1/4" SAE
Working Pressure	87 psi
Diameter	5/16"
Viscosity at 104°F	200 mm2/sec
Capacity	1.7 oz
Packaging	Blister
