ECO-9-A2L

Item Number 4689189

The two-stage vacuum pumps of the ECO series are suitable for all common refrigerants including A2L. They feature a compact aluminum housing with a sturdy handle. The high pumping capacity reduces evacuation time significantly, yet they operate very quietly.

An integrated solenoid valve prevents the loss of the already generated vacuum in case of accidental shutdown.

Additionally, the pumps come equipped with 1/4" and 3/8" SAE flare Intake port, allowing for flexible hose selection and compatibility with various systems. Moreover, they are easy to operate and maintenance-friendly.

- **A2L suitable**
- Integrated solenoid valve prevents vacuum loss during accidental shutdowns
- Easy to start
- Compact design with aluminium housing and easy to grip carrying handle
- Very quiet operation
- High pumping capacity reduces evacuation time
- Both 1/4" and 3/8" SAE flare inlet connections allow for flexibility of connections
- Vacuum pump oil included
