

AQUASWITCH

Item Number 4678741

A reliable switch for changing water levels. The electronic sensor sends a signal to valves, pumps and alarm systems when the water level exceeds a defined level.

- Sensitive electronic sensor technology
- No blocking of floats by dust, insects or other obstacles

Technical Data

| | |
|------------------------------------|-----------------------------------|
| Material | ABS |
| Colour | yellow (RAL 1023) |
| RoHS Conformity | 1 |
| RoHS Conformity | Yes |
| Operating Temperature Range | 0 – 70 °C |
| Water Temperature Range | 0 – 50 °C |
| Voltage | 95 - 254 VAC |
| Frequency | 50 / 60 Hz |
| Ingression Protection | IPX7 |
| Cable Length | 45 cm |
| Alarm Relay | 5A 250VAC 1250VA |
| Water Level | 10 mm nom., 6 mm min., 14 mm max. |
| Packaging | Blister |
