

AQUASWITCH.0066.8

Item Number 3000542

A reliable switch for changing water levels. The electronic sensor sends a signal to valves, pumps and alarm systems when the water level exceeds a defined level.

24 V, cable length: 116.14 inch.

- Sensitive electronic sensor technology
- No blocking of floats by dust, insects or other obstacles

Technical Data

Material	ABS
Colour	yellow (RAL 1023)
RoHS Conformity	Yes
Operating Temperature Range	
Water Temperature Range	
Voltage	24VDCAC
Frequency	50 / 60 Hz
Ingression Protection	IPX7
Cable Length	4.9 ft
Alarm Relay	5 A 250 VAC 1250 VA
Water Level	
Packaging	Joker Bag (Plastic)
